

Hand dryers

A range of four hand dryers is available in an assortment of power strengths.

A prerequisite for good hygiene practice, hand dryers eliminate bacterial build up on hand towels and are environmentally friendly.

MHANDT (Touch Standard)

This is a heavy-duty hand and face dryer featuring touch control. It has a 1.5KW loading with an ABS fire retardant casing as an extra safety feature. It has a cast aluminium chromed nozzle and an energy saving 40 second automatic cut out.

MHANDA (Auto Sensor Standard)

This hand dryer is very similar to the MHANDT but has an extra auto sensor feature for ease of use. This is a very popular dryer which makes hand and face drying effortless.

MTURBOT (Touch Turbo)

This is a turbo speed version of the MHANDT and features 2KW of power meaning quicker hand and face drying. It is touch operated, robust and long lasting.

MTURBOA (Auto Sensor Turbo)

This is the turbo version of the sensor hand and face dryer combining the convenience of the sensor feature and the speed of the turbo. This is a high quality hand dryer and is perfect in any circumstances.

Dimensions: 260W 240D 210H mm
